Client Case Study & Success Story

Reigniting Relationships & Boosting Sales
For Black Diamond Radio
Website: blackdiamondradio.com

Client Intro

Black Diamond Radio, originally established as Custom Earpiece in 2002 by President David Eames, identified a significant need for customer service in the two-way radio accessory market. The company quickly gained recognition for providing high-quality earpieces and accessories known for their clarity and durability.

Client Challenges

Black Diamond Radio faced several key sales obstacles:

- Inactive Customer Base – Their internal SDR team struggled to re-engage with past customers, missing out on valuable warm leads.
- Lack of Aggressive Outreach – Cold calling efforts were inconsistent, resulting in a slower pipeline and fewer conversions.

DigiReps Solutions

DigiReps stepped in to provide an end-to-end sales support solution:

- Strategic SDR Placement – We deployed a dedicated SDR to lead outbound efforts, starting with personalized reactivation of dormant customers.
- Dual Role Transition – As traction grew, the SDR was trained to invoice, process payments, and close sales directly—offering full-cycle support.
- Seamless Integration & Minimal Training – DigiReps managed all tech setup and onboarding, enabling the rep to begin effective outreach within days with minimal input from Black Diamond Radio.
- Operational Relief for In-House Team – This approach freed up Black Diamond's internal team to focus entirely on delivering a superior customer experience.

Smart way to grow your team remotely!

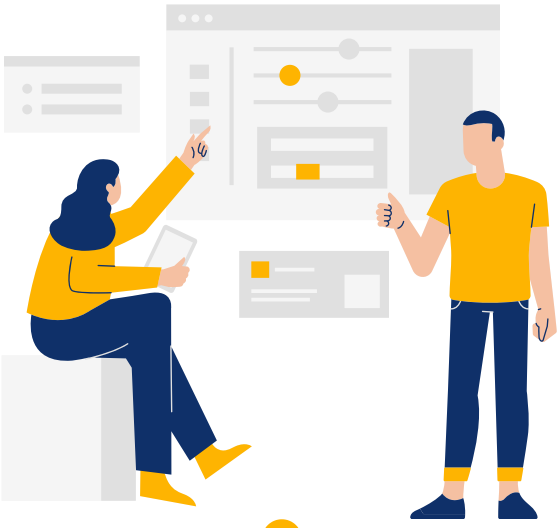
AT A GLANCE

Challenges

- **Dormant Client List** – Inactive customer base with missed opportunities from past clients.
- **Lack of Aggressive Outreach** – Inconsistent cold calling and limited outbound sales momentum.

Solutions

- **Dedicated SDR Deployment** to re-engage past clients and drive cold outreach.
- **Full-Cycle Sales Support** including invoicing and payment processing.
- **Fast, Low-Effort Onboarding** with seamless integration into existing systems.
- **Internal Team Relief** allowing in-house staff to focus purely on customer service.



Successes

Revived Previous Client Relationships

Dormant accounts were successfully reactivated, bringing in fresh opportunities from familiar contacts.

Accelerated Sales Cycle

With an SDR managing outreach and closing, sales velocity increased significantly.

Optimized Internal Focus

The in-house team concentrated on customer service, while DigiReps drove top-of-funnel growth.

Words from David himself

President of BD Radio

I was initially skeptical but working with DigiReps has been a game-changer. The setup was fast and effortless, and our rep was making calls within days. He consistently hits 100–150 calls a day and now handles everything from outreach to invoicing and payments. DigiReps has delivered exactly what they promised—reliable support, great communication, and zero drama. It's been a smooth, productive experience from day one. We're already planning to bring on another rep. This system truly works.
